**Re: Advanced Specialized Course on “*Precision Agriculture for the Mediterranean Region*” –
Third Edition: 8 September – 5 November 2025, CIHEAM Bari, Italy**

Excellency,

I am pleased to inform you that CIHEAM Bari is launching the third edition of the Advanced Specialized Course on "***Precision Agriculture for the Mediterranean Region***", intended for professionals from Ministries of Agriculture and Producer Associations in the Mediterranean countries.

The course aims to improve skills and build capacity in Precision Agriculture (PA) for multi-scale planning, at territory and farm level, with a focus on the Mediterranean production systems (see attached course presentation).

Lessons taught by internationally renowned Precision Agriculture experts from academia and companies (technology manufacturers and service providers) will be combined with hands-on experiences and technical visits to farms for practical demonstrations of the main technologies used in Precision Agriculture.

The course will be hosted at CIHEAM Bari from 8 September 2025, for a duration of 8 weeks.

The programme will include a visit to Agrilevante 2025, the international exhibition of machinery, systems and technologies for the agricultural production chain, which is going to be held in Bari from 9 to 12 October 2025.

A Certificate of Attendance will be delivered upon completion of the course awarding 20 ECTS credits. Should participants attend any further training courses at CIHEAM Bari, these credits will also be recognized.
