If the wait exceeds 15 minutes, you can contact with the contact person of the organizer by phone; 9. It is recommended to download and register WECHAT in advance.		

10. The cities to visit may be subject to change depending on the circumstances.		
Contact information of the organizer	Contact person for the program	Ms.Zhao Siqi, Ms.Zheng Youmiao
	Office phone	0086-571-88869207(Ms.Zhao), 0086-571-88869207(Ms.Zheng)
	Mobile phone	0086-13206536661(Ms.Zhao), 0086-13758170197(Ms.Zheng)
	Fax	0086-571-88860944(Ms.Zhao), 0086-571-88860944(Ms.Zheng)
	E-mail	siqizhao7@163.com(Ms.Zhao), judyinhangzhou@126.com(Ms.Zheng)
	Address	No. 310 Wenyi Road, Xihu District, Hangzhou, Zhejiang Province, China
About the Organizer	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without mental diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major surgical operation or in the process of acute diseases; not seriously disabled or pregnant.	
Training content	<p>1. Main training content</p> <p>(1) Overview of China, an introduction to China's history, geography, politics, economy, science, education, custom, etc., especially the modern development and the eco-civilization construction.</p> <p>(2) The "Two Mountains" Theory and Its Practice in China: An exploration of the essence, implementation, and lessons learned from the forestry "Two Mountains" theory.</p> <p>(3) Ecological security and timber safety of plantation forests;</p> <p>(4) Experience of plantation development in China;</p> <p>(5) Bamboo Industry Development Case Analysis in Developing Countries: The Example of Rwanda: Through the case of China's bamboo industry development aid project in Rwanda, this section explores the introduction of bamboo species and the pathways and experiences of bamboo industry development in Africa.</p> <p>2. Study tour arrangements</p> <p>(1) Visit Hangzhou Xishan National Forest Park in, to study the application of artificial intelligence in forest fire prevention, and to understand the practical scenarios of the innovative application of "multi sensory integration" in forestry ecological comprehensive intelligent governance.</p> <p>(2) Visit Qianshan City, Anqing City, Anhui Province to study the cultivation and management of plantations, as well as the processing of timber and economic forest products. Visit National Forest Reserves to study forest nurturing and improvement; Visit Forest farms to study the transformation and cultivation management of artificial forest landscape; Visit the Qianshan Oil Tea Cooperation and agricultural&forestry enterprises to study oil tea planting, understory Traditional Chinese Medicinal planting and processing, and the integrated management of "forest seedlings" and "forest vegetables".</p> <p>3. About the lecturers</p> <p>(1) Bao Minzhen: Ph.D., Associate Professor. His main research areas include the formation mechanisms and functional improvement of reconstituted materials. Since 2019, he has participated in international bamboo training courses organized by the Ministry of Commerce. He has presided over domestic scientific research projects such as the National Natural Science Foundation of China, Zhejiang Provincial Natural Science Foundation, and provincial-academy cooperation projects. He has published over ten SCI papers and serves as a reviewer for journals such as Forests, Construction and Building Materials, and European</p>	

Journal of Wood and Wood Products.

(2) Prof. Wang Hong, DG of Institute of Forest Resources Information Technology, CAF. He is mainly engaged in plantation technology, comparative study of Chinese and Western forestry. Since 2011, he has been specialized in research of national reserve forest policy and technology, promoting the inclusion of timber reserve issues in central documents and industry planning, and participating in the drafting of the "National Reserve Forest System Plan". He has over 20 years of experience in fast-growing forest projects and international loan afforestation.

(3) Prof. Pang Yong, doctoral supervisor, chief scientist of Forest Resources Information Technology, CAF, leading scientist of National Forest and Grass Technology Innovation, and deputy head of the Remote Sensing Working Group of the International Forestry Federation. He has long been engaged in forestry remote sensing mechanism model, remote sensing data processing and its application in forestry, regional forest cover mapping and carbon storage estimation etc.,

(4) Ding Xingcui: Professor and Ph.D. thesis advisor. His main research fields include bamboo forest cultivation and international cooperation, covering studies on bamboo growth and development, aging and flowering regulation, bamboo shoot flavor quality and environmental regulation, bamboo introduction, international bamboo industry development models, and cooperation. He has presided over and participated in more than 20 bamboo projects at home and abroad and has organized 150 training sessions, training over 6,000 participants.

(5) Ye Juntao: Professor at the School of Economics and Management, Zhejiang University of Science and Technology, and Master's thesis advisor. His research areas include Development Economics and Ecological Economics.

4. Others

To facilitate the exchange with Chinese experts, please prepare the materials related to the training topics in your country, such as: (a) the status quo and existing problems in the field of plantation sustainability management ; (b) potential international cooperation, especially with China, etc.
