AARDO-AHKNCRD TRAINING INTERNATIONAL WORKSHOP

International Training Workshop on “Disaster Management and Climate Change Adaptation”, AHKNCRD, Islamabad, Pakistan
15-23 October 2025

AARDO-AHKNCRD TRAINING INTERNATIONAL WORKSHOP

Introduction

Natural disasters such as floods, cyclones, tsunamis, droughts, and earthquakes profoundly impact human history, particularly in developing regions where vulnerability is heightened by limited resources and capacity. The adverse effects of such events are more severe in developing countries, where loss of life, livelihoods, Plantations, Livestocks and infrastructure have collateral damages and secondary consequences such as homelessness, epidemics, and psychological disorders. In recent decades, the African and Asian regions have been impacted severely and more frequently. South Asia, home to countries like Pakistan, India, Bangladesh and Sri Lanka, is one of the most disaster-prone areas globally, with millions affected by floods, droughts, and other natural calamities. Similarly, Africa has experienced significant loss of life due to droughts, floods, and epidemics. The impact of these disasters has been devastating, with substantial economic losses and long-term social consequences. Governments in disaster-prone regions have made concerted efforts to mitigate the effects of these disasters. Strategies include the development of institutional frameworks, technological forecasting tools and

models and, and the promotion of a culture of prevention preparedness and resilience. In Pakistan, for example, the government has implemented a comprehensive disaster management strategy, including the establishment of a National Disaster Management Authority (NDMA) and a National Institute of Disaster Management (NIDM) to respond adequately and effectively to disasters.

Recognizing the importance of the subject, AARDO, in collaboration with the Regional Office of AARDO and AHKNCRD, Government of Pakistan is organising an International Training Workshop on "Disaster Management and Climate Change Adaptation" at AHKNCRD, Islamabad, Pakistan.

Aims and Objectives of the Workshop

The broad objective of the workshop is to share experiences and build capacity of participants to address issues related to disaster management and climate change adaptation. Specific objectives of the workshop are to:

- discuss various types of disasters and their impacts on environment, economy, agriculture and rural livelihood;
- discuss mitigation techniques for disaster risk reduction and management;
- raise awareness and amplify discourse on factors contributing to climate change, its adverse impact on agriculture, rural livelihood and possible solutions; and
- provide a forum for sharing of experiences and strategies with regard to disaster management and climate change adaptation.
